

**DJIBOUTI'S ROLE IS FALLING SHORT OF THE SOMALI EXPECTATIONS &
MERITS!
DJIBOUT OUGHT TO OFFER WILLINGNESS TO SOMALI NATION UNITY & END
ALL CIRIS WHEN THERE IS TRUE FREEDOM TO DO SO!**

By A. Hussein, Amiirdaloon, (BBA/MBA), Denmark, amiirdaljire@gmail.com, 10/01/12

Sending Djiboutians to Somalia to face those who liberated them from French colonialism, with killing combat, diplomacy and finance, is not the right reward to be the start of the reward the Somalis expected from their brothers who got their independence by determining Somali support! A Disappointing start indeed. The right reward which is the relevant one for the current situation on the Horn is that Djibouti offers its willingness to be part of a federal republic of Somali Nation comprising all the five parts which colonialists divided the Somali nation into.

After that, the region may create a common market in which all may fish and farm together without feeling neither land locked nor humiliated by colonial agency with the West as the principal atrocity designer for reserving the region's natural resource and even worse ill wills.

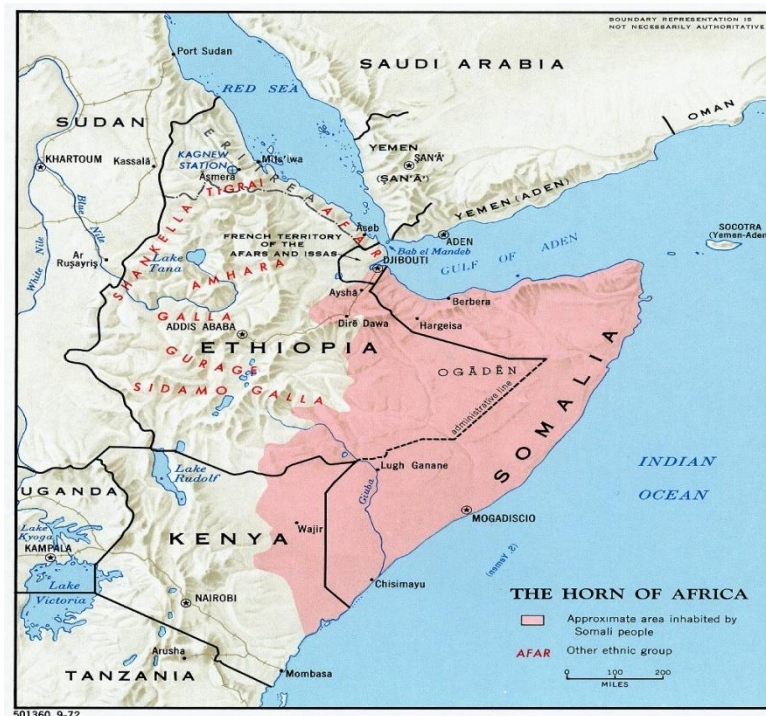

We hope that Djiboutians will soon start considering this solution for the region as a whole and their fellow Somalis. Because so long there is an oppressed, humiliated and threatened Somali, the West and their misused, in fact enslaved for enslaving, neighbors will not accept any re-creation of a free and strong Somali with a capability of rescue like that of 1977.

As for the upcoming one-day meeting, lasting peace on the Horn cannot come by continuation of injustice from colonialism. It can be brought about by, Allah Willing, ending that injustice which is the division of the Somali Nation into five parts two of which are still under colonialism in agency under Ethiopia and Kenya just as the other three parts (Djibouti, and the deliberately demolished Somali Republic in question) are not enjoying any better freedom just because of the two which should never again get someone to come in their rescue like that of 1977 war between Ethiopia and Somalia the results of which were later destroyed by both the West and the East - Nato and Warsaw.

Dubai conference of one day for a lasting peace sounds astonishing!!! Allah can make it so decisive and quite so if it aims at restoring justice in the Horn: demanding the re-unification of the five Somali parts (**see map below**) and a formation of a common market for the region. Details: <http://www.hornpeace.webs.com/>.

Until then we hold each nation which is either signatory to or recognizer of the so-called AU Charter, which we regard to be AN ENSLAVING CONSPIRACY AGAINST THE SOMALI NATION since it legalizes and perpetuates the dividedness, degrading and humiliation of the Somali nation under neighboring cheated Christian communities who are enslaved by the ex- and still colonialist West in order to reserve the region's resources for their generations, a case in which the UN too betrayed the Somali Nation by not demanding FREE SOMALI NATION IN UNITY ACCORDING TO ITS CHARTER (see map below**)**

The map of the Horn of Africa (the Somali Nation and its neighbors indicating approximately the size of the Somali Nation territories).

AND AS FAR AS OUR SISTERLY NEIGHBORS ARE CONCERNED, WE SHOULD ASK OURSELVES: FOR OUR FREEDOM, CAN WE FIRST FREE OUR NEIGHBORS FROM THE ENSLAVEMENT OF THE COLONIALIST WEST?

DO YOU KNOW WHO THE LOYAL MODERN SLAVES OF THE COLONIALIST WEST ARE? THE NON-MUSLIM KENYANS AND ETHIOPIANS IN POWER

I need help to understand the difference between the classic labor slavery mostly in American plantations and the modern soldier slavery sometimes referred to as mercenaries. Is it not slavery of a nation's citizens when another nation says it is arming the sons of that nation so that they wage a war on their behalf?

Some years ago, it was very clear in the media that USA was planning to establish an army of its own in Ethiopia specially for controlling Somalia. There followed that so called entry of Ethiopia into Somalia. It was never classified as an American war in Somalia and the item, American made army in Ethiopia, was fully withdrawn from the media. Was that different from the Africans who were bought and transported to America for plantation work and other purposes?

Now my tiny State of Denmark has just announced that it is going to be a major share holder in what shall be called a "Kenyan Navy" and fully manned by Kenyan sons and armed mainly by Denmark. (http://politiken.dk/udland/ECE1489522/danmark-opruster-kenyas-militaer/?ref=nyhedsbrev_politiken-internationalt, translate Danish by google). The purpose is clear. It is to have a share of the Somali territories and resources which are under public looting by the entire guilty international community which had betrayed the Somali nation by letting it remain divided

and humiliated under neighboring Christian communities while UN charter was demanding the freedom of nations in unity, for details visit: <http://www.hornpeace.webs.com>, it carries a Roadmap for lasting Horn solutions, Allaah Willing!

This act by Denmark creates more doubts about the alleged Norwegian plans of having a share too through Kenya – the so called memorandum of understanding about Somali waters. Is Denmark taking over that same project? Is this different from the classic slavery? Making Kenyans war slaves for looting and enslaving the Somalis? When Kenyans and Ethiopians are misused by the Colonialist West as a new form of slavery, their citizens and as a result the whole region, **sweat smelly ashes and dust while the enslavers sweat oil and cream**. Their child or infant mortality before one year per thousand births is over **60 babies** while in it is the West under **7 babies** per thousand. Their per capita income is under **\$600** against **\$40,000** a year in the West.

Why should these nations degrade their citizens and the entire region so low when they can make peace and justice with their neighbor, the Somali nation, by re-uniting the five Somali parts into which the European colonialists, France, Italy and UK, divided this nation in a federal state? Can't they after that create a common market for the region in which none feels neither landlocked nor colonized and humiliated under **slavery-like colonial agency** and in which all citizens can fish and farm together without any complexes nor distrust?

Somalis should first free these nations from the West which is enslaving them for enslaving and looting the Somalis. The shameful West should change this disgraceful attitude. It's a puzzle to be solved by, if existent at all, the Somali intellectual and true national figures if any.
